Cerner Video Update

This week's [Cerner video](#) features Chenoa Reeves, RN, discussing Cerner implementat in the PICU.

Cerner Rapid Advancement Meetings

Members of the Cerner, IT and Informatics teams is meeting all day Thursday and Friday to review Cerner's recommendations for addressing many of our current challenges. Cerner is presenting a plan for a timely response to improving performance and the user experience. Once this work is compiled and reviewed, the Banner and Cerner teams will create a work plan to rapidly implement Cerner improvements and solutions. We will share more about the final outcome of these meetings next week.

Cerner Tip of the Week

For Chronic medications, choose Maintenance in "Type of Therapy" when prescribing to:

- Prevent chronic meds from falling off the med list
- Gray out "stop date/time" when using Special Instructions

Details for lisinopril (lisinopril 2.5 mg oral tablet)
